University of Gdańsk

Subject card

Subject name and code	Internship, PG_00153630		
Field of study	Biotechnology		
Date of commencement of studies	October 2026	Academic year of realisation of subject	2026/2027
Education level	Master's studies	Subject group	Obligatory subject group in the field of study Optional subject group
Mode of study	full-time studies	Mode of delivery	at the university
Year of study	1	Language of instruction	Polish
Semester of study	2	ECTS credits	2.0
Learning profile	academic	Assessment form	credit
Conducting unit	Intercollegiate Faculty of Biotechnology UG-MUG -> Rector		
Name and surname of lecturer (lecturers)	Subject supervisor	prof. dr hab. Aleksandra Królicka	
	Teachers		

Lesson types

Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
Number of study hours	0.0	30.0	0.0	0.0	0.0	30

E-learning hours included: 0.0

Learning activity and number of study hours

Learning activity	Participation in didactic classes included in study plan	Participation in consultation hours	Self-study	SUM
Number of study hours	30	5.0	15.0	50

Subject objectives

The aim of the course is to develop the ability to critically self-evaluate one's own knowledge and skills and to enable continuous improvement, updating of knowledge and improvement of skills in the field of biotechnology, as well as to develop the ability to think and act entrepreneurially, especially useful in biotechnology. Students will have the opportunity to practice the ability to adapt to a changing environment combined with the acquisition of knowledge and skills, especially in a focused and independent manner.

Learning outcomes

Course outcome	Subject outcome	Method of verification
[BIOTECHMU2_U06] The graduate is able to prepare, in a targeted manner in Polish and / or English, a written study, a scientific publication in the field of biotechnology using scientific language, including specialist terminology and conceptual apparatus.	The student prepares a concise report on his/her professional practice including: information on the knowledge, skills or competencies acquired or developed and how the acquired competence can contribute to his (the student's) career development.	[SU2] presentation/project/paper/ report
[BIOTECHMU2_K07] The graduate is aware of the importance of economic factors in the commercialization of research results. He thinks and acts in an entrepreneurial manner.	A student choosing a place to carry out student internships improves his professional skills.	[SK6] demonstration of practical skills
[BIOTECHMU2_K03] The graduate effectively plans and organizes own work, especially laboratory work; plans an individual professional career.	The student himself chooses the location of the internship (the base of biotechnology companies) in order to improve his skills acquired during his studies.	[SK5] implementation of a problem task
[BIOTECHMU2_U08] The graduate is able to learn independently, effectively plan and organize work independently or as part of a team.	The student independently carries out the professional practice according to the practice plan within the team to which he/she will be assigned.	[SU8] observation of student's independent or team work
