Subject objectives	The purpose of the course is to familiarize students with environmental administration as a complex process that includes both the actions of state and local government bodies that ensure environmental protection and rational management of environmental resources.						

Learning outcomes	Course outcome	Subject outcome	Method of verification
	[ADMINL3_U01] drawing upon his/her own knowledge as well as other sources of information — including the ability to use modern technologies and professional methods of acquiring and analysing information — is capable of identifying, analysing, and resolving problems, as well as interpreting phenomena relating to the organization and functioning of public administration, administrative activity, and selected areas of social and economic life.	-	[SU5] implementation of a problem task
	[ADMINL3_K02] is aware of the necessity to undertake actions aimed at protecting the public interest, the social interest, and the individual interests of a person, as well as of the need to balance these interests, with due respect for the law, in the event of conflicts between them. Moreover, he/she demonstrates an entrepreneurial approach and is prepared to initiate legal proceedings in which such interests are safeguarded.	-	[SK1] oral statement/conversation/discussion
	[ADMINL3_W05] is familiar with and understands the current dilemmas concerning the functioning of public administration and activities undertaken within the sphere of the state and administration in relation to substantive, procedural, and constitutional law institutions. Moreover, he/she identifies the fundamental phenomena occurring within the market economy and economics, including knowledge and understanding of the basic principles governing the establishment and development of various forms of entrepreneurship.	-	[SW2] presentation/project/paper/report
	[ADMINL3_W02] possesses advanced knowledge of, and is able to characterise, the system of public authority (including at the national and European Union levels), the structure of public administration, the procedures for the appointment of public bodies, as well as the legal framework governing the organisation and functioning of public administration and the work of civil servants.	-	[SW4] test/exam - oral or written
Subject contents	<ol style="list-style-type: none"> 1. The environment and its threats. 2. Environmental protection as a task of the state. 3. Law in environmental protection. 4. General principles of environmental law. 5. Administrative-legal norms in environmental protection. 6. Management of environmental issues by public administration. 7. Access to information and public participation in environmental protection. 8. Legal responsibility in environmental protection.
