	[BIOTECHMU2_U07] The graduate is able to prepare and present in Polish and/or English an oral presentation covering detailed issues in the field of biotechnology using scientific language, including specialist terminology and conceptual apparatus; conduct discussions.		The student presents a multimedia presentation in English of the results of his/her master's thesis research, prepared in cooperation with the supervisor and the instructor of the thesis seminar, using appropriate scientific language and specialized terminology appropriate to biotechnology and medical sciences.			[SU1] oral statement/conversation/discussion [SU2] presentation/project/paper/report	
	[BIOTECHMU2_U04] The graduate possesses the ability to proficiently use scientific information, including English, regarding biotechnology; critically analyses and selects information; uses electronic sources; has the ability to use appropriate databases.		In preparation for presenting the results of their master's thesis, the student searches for and selects scientific literature in the field of biotechnology, using databases and other electronic sources, including English-language scientific publications. He/she critically analyzes scientific content, assessing the credibility of the sources, research methodology, and the substantive value of the publications.			[SU1] oral statement/conversation/discussion [SU2] presentation/project/paper/report	
<b>Subject contents</b>	The programme content will be related to the ongoing master's projects						

Prerequisites and co-requisites			
Assessment methods and criteria	Subject passing criteria	Passing threshold	Percentage of the final grade
	Presentation of the thesis	51.0%	100.0%
Recommended reading	Basic literature	Academic publications on MSc projects, including publications by the team in which the MSc project is carried out.	
	Supplementary literature	None	
	eResources addresses		
Example issues/ example questions/ tasks being completed			
Work placement	Not applicable
