<b>Subject objectives</b>	The course aims to familiarize students with the fundamental mechanisms of regulating infrastructure sectors, with particular emphasis on the role of regulatory authorities, legal frameworks, and the operation of network infrastructure in sectors such as energy, transport, telecommunications, and water management. The course seeks to develop students' skills in identifying regulatory instruments and assessing their impact on public interest, competition, and sustainable development.						

Learning outcomes	Course outcome	Subject outcome	Method of verification
	[ADMINL3_U01] drawing upon his/her own knowledge as well as other sources of information — including the ability to use modern technologies and professional methods of acquiring and analysing information — is capable of identifying, analysing, and resolving problems, as well as interpreting phenomena relating to the organization and functioning of public administration, administrative activity, and selected areas of social and economic life.	-	[SU1] oral statement/conversation/discussion [SU4] test/exam - oral or written [SU8] observation of student's independent or team work
	[ADMINL3_K01] being aware of the role of knowledge in solving problems related to the organization and functioning of administration, as well as the application of law in selected domains of social and economic life, they are prepared to critically assess their own knowledge and the content they receive, and also recognize the need to rely on expert knowledge—including doctrinal views and case law—when encountering difficulties in independently resolving a problem.	-	[SK1] oral statement/conversation/discussion [SK4] test/exam - oral or written [SK5] implementation of a problem task [SK8] observation of student's independent or team work
	[ADMINL3_W05] is familiar with and understands the current dilemmas concerning the functioning of public administration and activities undertaken within the sphere of the state and administration in relation to substantive, procedural, and constitutional law institutions. Moreover, he/she identifies the fundamental phenomena occurring within the market economy and economics, including knowledge and understanding of the basic principles governing the establishment and development of various forms of entrepreneurship.	-	[SW4] test/exam - oral or written [SW1] oral statement/conversation/discussion
	[ADMINL3_W02] possesses advanced knowledge of, and is able to characterise, the system of public authority (including at the national and European Union levels), the structure of public administration, the procedures for the appointment of public bodies, as well as the legal framework governing the organisation and functioning of public administration and the work of civil servants.	-	[SW4] test/exam - oral or written [SW1] oral statement/conversation/discussion
Subject contents	<ol style="list-style-type: none"> <li>1. Definition of infrastructure sectors definitions, characteristics, significance for economy and society.</li> <li>2. Models of sector regulation ex ante and ex post regulation, self-regulation, deregulation.</li> <li>3. Regulatory authorities structure, competences, and independence in Poland and the EU (Energy Regulatory Office, Office of Electronic Communications, Railway Transport Office, National Water Authority, European Commission).</li> <li>4. Regulatory instruments tariffs, concessions, licences, access obligations, service standards.</li> <li>5. Regulation in the energy sector energy market, network access, renewable energy sources.</li> <li>6. Regulation in the transport sector railway, aviation, road infrastructure; safety and interoperability.</li> <li>7. Regulation in telecommunications and postal services operator obligations, network access, consumer and competition protection.</li> <li>8. Regulation in water and wastewater management regulatory competences, tariffs, infrastructure investments.</li> <li>9. Principles of good governance in regulation transparency, participation, proportionality.</li> <li>10. Regulatory challenges energy transition, digitalisation, Green Deal, environmental protection.</li> </ol>
