| <b>Subject objectives</b>                          | Understanding of the processes within the enterprise. The ability to define the needs and preferences of customers and to develop market-based products and services. |  |                    |                                     |  |            |     |

| Learning outcomes | Course outcome  | Subject outcome   | Method of verification   |
|-------------------|---|---|--|
|                   | [EKONMU2_W05] has a knowledge of the human being as a manufacturer and consumer and has a knowledge of the human being as a creator of culture and social structures  | The student has an extended knowledge of the human being as a consumer and buyer of the products proposed by the simulation participants.   | [SW1] oral statement/<br>conversation/discussion<br>[SW2] presentation/project/paper/<br>report<br>[SW5] implementation of a<br>problem task |
|                   | [EKONMU2_W03] has a knowledge of relations between economic phenomena, entities and organisations as well as public institutions functioning in the national, international and intercultural spheres   | The student has an in-depth knowledge of the relationships between simulation participants and the processes occurring between them.  | [SW1] oral statement/<br>conversation/discussion<br>[SW2] presentation/project/paper/<br>report<br>[SW5] implementation of a<br>problem task |
|                   | [EKONMU2_U13] can manage teamwork as well as interact and work in a team (including in an international environment) assuming a leading role in it  | The student is able to interact and work in a team representing the company, the simulation participant.  | [SU1] oral statement/conversation/<br>discussion<br>[SU5] implementation of a<br>problem task  |
|                   | [EKONMU2_U06] can practically apply various forms and range of acquired knowledge in economics, finance and management, supplementing it with an independent critical analysis of its efficiency and usefulness   | The student has the ability to put into practice the knowledge acquired in economics, finance and management, complementing it during the game with an analysis of efficiency. Doubts that arise during the analysis are discussed during consultations with the course instructor. | [SU1] oral statement/conversation/<br>discussion<br>[SU2] presentation/project/paper/<br>report  |
|                   | [EKONMU2_K04] is ready to think and act in an entrepreneurial manner; adapts to new situations and conditions; undertakes challenges of creative thinking; acquires resilience to failures; can assess risks and threats and find ways of counteracting their effects | The student adapts to new situations and conditions, takes on the challenge of creative thinking, acquires resilience in the face of failure as a member of a team involved in a simulation.  | [SK2] presentation/project/paper/<br>report<br>[SK5] implementation of a<br>problem task   |

## Subject contents

1. Introduction to strategic business management 1
    - 1.1. Methods of forming strategic objectives in a company
    - 1.2. Elements of a strategic plan
  2. Introduction to strategic business management 2
    - 2.1. Basic strategic analysis
    - 2.2. Methods of positioning in relation to competitors
  3. Customer segmentation methods
    - 3.1. Segmentation based on customer preferences and habits
    - 3.2. Demographic characteristics of segments
  4. Development of a long-term strategy for the company
  5. Introduction to simulation
    - 5.1. Description of the market situation
    - 5.2. Learning to use the user interface
  6. Methods of introducing a new product to the market
    - 6.1. Analysis of customer expectations and preferences
    - 6.3. Defining a range of price acceptability
  7. Building and implementing communication strategies
    - 7.1. Message and media selection for target segments
    - 7.2. Brand awareness
  8. Customer satisfaction and loyalty surveys
    - 8.1. Overall satisfaction index
    - 8.2. Influence of individual elements of the offer on overall customer satisfaction
  9. Summary of the course
- The student discusses these issues during consultations with the course instructor
