

Subject card

Subject name and code	Process of obtaining financing , PG_00199467						
Field of study	International Economic Relations						
Date of commencement of studies	October 2026	Academic year of realisation of subject			2027/2028		
Education level	Master's studies	Subject group			Obligatory subject group in the field of study Optional subject group Subject group related to scientific research in the field of study		
Mode of study	full-time studies	Mode of delivery			at the university		
Year of study	2	Language of instruction			Polish		
Semester of study	3	ECTS credits			2.0		
Learning profile	academic	Assessment form			credit		
Conducting unit	Department of Sustainable Market Processes -> Faculty of Economics -> Rector						
Name and surname of lecturer (lecturers)	Subject supervisor		dr Joanna Adamska				
	Teachers						
Lesson types	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	0.0	15.0	0.0	15.0	0.0	30
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	30		0.0		20.0	50
Subject objectives	The aim of the course is to familiarize students with the process of obtaining financing, particularly in the area of lending and the assessment of credit risk for enterprises.						

Learning outcomes	Course outcome	Subject outcome	Method of verification
	[MSGMU2_U07] can plan and manage a commercial transaction on the international market, conduct effective negotiations, analyse and critically assess the course of the transaction	The student can plan and execute banking transactions, including setting priorities and planning related tasks. They can also choose and apply the appropriate form of transaction settlement, as well as analyze and evaluate its progress.	[SU2] presentation/project/paper/report [SU4] test/exam - oral or written
	[MSGMU2_U06] can identify types of risks related to international operations of enterprises and correctly determine their consequences and methods of mitigation, with a skilful application of theory, using appropriate research method	The student understands and can correctly identify credit risk, as well as distinguish between individual credit risk and portfolio credit risk in an international corporation	[SU2] presentation/project/paper/report [SU4] test/exam - oral or written
	[MSGMU2_K04] is ready to think and act in an entrepreneurial manner; adapts to new situations and conditions; undertakes challenges of creative thinking; acquires resilience to failures; assesses risks and threats and finds ways of counteracting their effects	The student is ready to think entrepreneurially, understands the importance of knowledge in economics in the process of planning, negotiating, and monitoring banking transactions, particularly in the credit risk assessment process, and is prepared to seek expert opinions in credit risk assessment.	[SK1] oral statement/conversation/discussion [SK2] presentation/project/paper/report
	[MSGMU2_W09] has a knowledge of selected areas of the functioning of a modern enterprise in the national and international environment; understands the conditions, principles and consequences of decisions taken in its structures aiming at the development, and the dependencies among enterprises on the international market	The student has deep knowledge of corporate lending activities in both domestic and international environments and understands the factors related to conducting proper credit risk analysis. Student develops knowledge through consultations with the instructor while working on the project.	[SW4] test/exam - oral or written [SW2] presentation/project/paper/report
	[MSGMU2_W13] has an in-depth knowledge of methods and tools for describing economic phenomena, including data acquisition techniques, which make it possible to describe and analyse economic entities functioning on the international market as well as processes and phenomena occurring in them and between them, and also those supporting decision-making processes	The student is familiar with selected methods and tools, including techniques for data acquisition, enabling the evaluation of economic entities operating in the international market, particularly in the area of credit risk assessment.	[SW4] test/exam - oral or written
