<b>Subject objectives</b>	The aim of the course is to introduce students to the principles of professional civil liability, including the liability of individuals performing professions of public trust (e.g., lawyers, doctors, architects, tax advisors). The course focuses on analyzing the conditions of liability, the scope of professional duties, the role of civil liability insurance, and practical aspects of pursuing claims. Current issues and case law related to professional liability in various fields are also discussed.						

Learning outcomes	Course outcome	Subject outcome	Method of verification
