

Subject card

Subject name and code	Fundamentals of Hydrography - lecture, PG_00201103						
Field of study	Marine Hydrography						
Date of commencement of studies	October 2026	Academic year of realisation of subject			2027/2028		
Education level	Bachelor's studies	Subject group			Obligatory subject group in the field of study Subject group related to practical vocational preparation		
Mode of study	full-time studies	Mode of delivery			at the university		
Year of study	2	Language of instruction			English		
Semester of study	3	ECTS credits			1.0		
Learning profile	practical	Assessment form			credit		
Conducting unit							
Name and surname of lecturer (lecturers)	Subject supervisor		dr inż. Artur Grządziel				
	Teachers						
Lesson types	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	15.0	0.0	0.0	0.0	0.0	15
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	15		1.0		9.0	25
Subject objectives	Presentation of the role and importance of marine hydrography for human activities at sea, the organization and tasks of the national marine hydrographic service, the principles and organization of conducting hydrographic works and legal aspects of hydrographic activities.						

Learning outcomes	Course outcome	Subject outcome	Method of verification
	[HML3-U06] is able to make a preliminary economic assessment of the proposed solutions and engineering activities undertaken	is able to use hydrographic terminology in Polish and English	[SU4] test/exam - oral or written
	[HML3-U04] is able to use analytical, simulation and experimental methods to identify, formulate and solve engineering tasks	is able to select appropriate survey systems for various hydrographic works	[SU4] test/exam - oral or written
	[HML3-U02] is able to select and apply basic research techniques and tools in the field of aquatic environment research, as well as plan and carry out measurements, develop the obtained results and interpret them correctly	is able to select and apply basic survey techniques in marine hydrography	[SU4] test/exam - oral or written
	[HML3-W04] knows and understands, at an advanced level, the issue of measurements related to the exploration of sea basins and inland waters and tools allowing to describe, interpret and present the results of measurements	knows at an advanced level the issues related to hydrographic surveys in marine and inland waters	[SW4] test/exam - oral or written
	[HML3-U01] is able to plan and conduct experiments, including computer simulations, interpret the results obtained and draw conclusions	is able to use national and foreign literature and references, evaluate, critically analyze and synthesize information	[SU4] test/exam - oral or written
	[HML3-W14] knows and understands key legal regulations regarding the sustainable development of the marine environment and nature protection	knows basic legal norms and standards regarding hydrographic activities and sustainable development of the marine environment	[SW4] test/exam - oral or written
	[HML3-W15] knows and understands labour law and other legal bases related to the profession of hydrographer, in particular health and safety regulations and ergonomic principles	knows legal aspects related to the profession of a hydrographer	[SW4] test/exam - oral or written
	[HML3-W16] knows and understands engineering standards and norms specific to the field of study, in particular those recommended by IHO and IMO	knows engineering standards recommended by IHO and IMO	[SW4] test/exam - oral or written

Subject contents	<p>Marine hydrography - its role and importance for human activity at sea Introduction to hydrography.</p> <p>The concept of marine hydrography. Basic definitions. IHO. The importance of hydrographic measurements for human activities at sea.</p> <p>Organization and tasks of the hydrographic service in Poland Organization of the hydrographic service. Tasks of the hydrographic service. State Maritime Hydrographic Service. BHMW. Hydrographic Service of the Navy and Maritime Offices.</p> <p>National and international requirements and standards Professional qualifications of a hydrographer. Marine hydrographer of categories A and B. Training of hydrographers in Poland.</p> <p>Minimum requirements for hydrographic surveys. Standard S 44, edition 6.0.0. Standards S-5A, S-5B. Publication C-13.</p> <p>Hydrographic works - types and general requirements. The concept of hydrographic works. Maritime administration.</p> <p>Types of hydrographic works. General requirements. Bathymetric measurements. Sonar measurements. Geophysical measurements. Oceanographic measurements. Geodetic measurements. Criteria for the division of hydrographic works. Polish sea areas. Areas of survey work. Stages of performing hydrographic works General principles of conducting survey measurements.</p> <p>Division into stages of hydrographic work. Surveys planning. Technical design and Technical task. Work planning in the central and executive units. Survey equipment and survey units.</p> <p>Marine construction, hydrotechnical and hydrographic measurements Naval construction basic definitions. Deepening of the bottom, shallowing. Bottom reinforcements. Bathymetric plans and bottom cleanliness certificate. Bottom examination report.</p> <p>Navigation devices and systems used in hydrography. Basic devices and measurement systems used in marine hydrography.</p> <p>Principles of using hydrographic measuring devices.</p> <p>The role and importance of navigational and hydrographic protection of human activities at sea. Basic concepts in the field of hydrographic activities.</p>								
Prerequisites and co-requisites									
Assessment methods and criteria	<table border="1"> <thead> <tr> <th data-bbox="453 1442 794 1473">Subject passing criteria</th> <th data-bbox="799 1442 1141 1473">Passing threshold</th> <th data-bbox="1145 1442 1485 1473">Percentage of the final grade</th> </tr> </thead> <tbody> <tr> <td data-bbox="453 1473 794 1507">colloquium</td> <td data-bbox="799 1473 1141 1507">51.0%</td> <td data-bbox="1145 1473 1485 1507">100.0%</td> </tr> </tbody> </table>			Subject passing criteria	Passing threshold	Percentage of the final grade	colloquium	51.0%	100.0%
Subject passing criteria	Passing threshold	Percentage of the final grade							
colloquium	51.0%	100.0%
