

Subject card

Subject name and code	Economical basis of spatial management, PG_00201243						
Field of study	Spatial Management						
Date of commencement of studies	October 2026	Academic year of realisation of subject			2026/2027		
Education level	Bachelor's studies	Subject group			Obligatory subject group in the field of study Subject group related to scientific research in the field of study		
Mode of study	full-time studies	Mode of delivery			at the university		
Year of study	1	Language of instruction			Polish		
Semester of study	1	ECTS credits			4.0		
Learning profile	academic	Assessment form			exam		
Conducting unit	Division of Spatial Studies -> Institute of Socio-Economic Geography and Spatial Management -> Faculty of Social Sciences -> Rector						
Name and surname of lecturer (lecturers)	Subject supervisor		dr Maciej Tarkowski				
	Teachers						
Lesson types	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	30.0	15.0	0.0	0.0	0.0	45
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	45		5.0		50.0	100
Subject objectives	Demonstrates an understanding of macroeconomic phenomena within the economy and of the economic mechanisms governing spatial development. Acquires the ability to analyse publicly available economic, political, and social information relevant to spatial planning and land-use management processes. Understands the interrelationships between global, national, and local processes and their impact on spatial development and planning.						

Learning outcomes	Course outcome	Subject outcome	Method of verification
	[GPL3_W07] knows and understands the methods and tools for shaping spatial development	identify forms, methods and tools of land-use planning	[SW4] test/exam - oral or written
	[GPL3_W11] knows and understands general principles of creating and developing forms of individual entrepreneurship, using knowledge of spatial management and corporate social responsibility, with particular emphasis on the responsibility for impact on the natural environment	recognises and lists the basic economic conditions for planning and running a business, the functioning of institutions, and other socio-economic actors	[SW4] test/exam - oral or written [SW1] oral statement/ conversation/discussion [SW5] implementation of a problem task
	[GPL3_U03] selects appropriate sources of information and, on this basis, gives opinions on the development of space for a specific area with particular regard to the principles of sustainable development and spatial order	on the basis of theoretical knowledge, is able to critically select data and basic methods to describe and analyse the causes and course of spatial management processes and on their basis to formulate correct conclusions	[SU1] oral statement/conversation/ discussion [SU5] implementation of a problem task
	[GPL3_K03] is ready to identify and resolve cognitive problems related to the profession in accordance with the latest knowledge in the field of spatial management, including expert opinions	identifying and solving economic problems in the local and regional space	[SK4] test/exam - oral or written
[GPL3_W06] zna i rozumie forms, methods and tools for space protection (environment, landscape, cultural heritage)	knows and understands the economic conditions of space protection	[SW4] test/exam - oral or written	
Subject contents	<p>Theory of needs, scarcity of resources and the concept of management. Supply and demand markets and their variability in space (using examples of selected markets: e.g. real estate, labour, transport). Man in space from homo economicus through homo socio-economicus to homo oecologicus. The concept of cost and opportunity cost. The economic dimension of the utility of space. Land rent as an economic mechanism for shaping spatial development. The regularities of agriculture as determinants of spatial development. The regularities of industry as determinants of spatial development. The regularities of basic services as determinants of spatial development.</p> <p>Basic economic categories; basic market categories; circular flow in the economy; fiscal policy system; monetary policy system</p>		
Prerequisites and co-requisites			
Assessment methods and criteria	Subject passing criteria	Passing threshold	Percentage of the final grade
	Oral presentation / discussion	51.0%	10.0%
	Problem-based assignment	51.0%	20.0%
	Writing egzam	51.0%	70.0%
