Subject objectives	Acquisition of knowledge and the ability to perceive in the views of ancient philosophers the paradigms of thought present in contemporary culture, the ability to think holistically necessary for critical thinking and problem solving in a systemic manner; formation of the ability to infer and argue in accordance with the principles of logic, including the evaluation of arguments necessary for discussion.						

Learning outcomes	Course outcome	Subject outcome	Method of verification
	[GPMU2_W01] recognises an in-depth degree, the interdisciplinary nature of spatial management and has ordered and theoretically founded knowledge of multidimensional approaches in spatial policy	Lists the paradigms of thought underpinning the interdisciplinarity and systemicity of spatial management issues, including social conditions and social spatial conflicts.	[SW4] test/exam - oral or written [SW1] oral statement/ conversation/discussion
	[GPMU2_U06] can organise and lead a debate among diverse audiences regarding spatial conflicts, with particular emphasis on environmental conflicts	debates using critical thinking and good argumentation techniques	[SU1] oral statement/conversation/ discussion [SU4] test/exam - oral or written
	[GPMU2_U02] properly selects sources and information derived from them, with particular regard to sources of spatial information, evaluates them critically and interprets them creatively	Critically selects information for inference and adds good arguments in discussing and presenting one's position.	[SU1] oral statement/conversation/ discussion [SU4] test/exam - oral or written
	[GPMU2_U01] formulates and solves complex and unusual problems of spatial management and proposes their innovative solutions, taking into account the unpredictability of spatial processes	Critically selects information for inference and adds good arguments in discussing and presenting one's position.	[SU1] oral statement/conversation/ discussion [SU4] test/exam - oral or written
	[GPMU2_K01] is ready to critically assess the possessed knowledge and received content	Is ready to evaluate the received content and make correct inferences critically.	[SK1] oral statement/conversation/ discussion [SK4] test/exam - oral or written
[GPMU2_W06] identifies problems and theories in spatial management, taking into account complex dependencies and trends of changes in the natural environment; understands their theoretical and practical significance	Understands philosophy as a fundamental component of cultural heritage affecting the social, including cultural implications of spatial management.	[SW4] test/exam - oral or written [SW1] oral statement/ conversation/discussion
