|  | <b>Number of study hours</b>  | 30   |                               | 8.0                                 |  | 162.0      | 200 |
| <b>Subject objectives</b>                          | The aim of the course is to prepare students for the independent writing of scientific papers and the presentation of the results of these papers. Substantive support in the preparation and editing of master's theses by students. |  |                               |                                     |  |            |     |

| Learning outcomes   | Course outcome   | Subject outcome   | Method of verification                  |
|---|--|---|---|
|   | [GPMU2_K01] is ready to critically assess the possessed knowledge and received content   | verifies the materials and information obtained for their usefulness in the research process  | [SK2] presentation/project/paper/report |
|   | [GPMU2_K04] is ready to develop the profession's achievements, upholding its ethos, observing the principles of professional ethics by themselves and demanding it from others   | adheres to the principles of a fair research process, respects recognised scientific authorities in the field of spatial planning in Poland and worldwide, observes the principles of anti-plagiarism law | [SK2] presentation/project/paper/report |
|   | [GPMU2_U01] formulates and solves complex and unusual problems of spatial management and proposes their innovative solutions, taking into account the unpredictability of spatial processes  | identifies problems of interest in spatial management and constructs a process to explain/solve them  | [SU2] presentation/project/paper/report |
|   | [GPMU2_U05] formulates and tests hypotheses regarding determinants (natural, social, economic, cultural, legal) of spatial management  | constructs research questions and hypotheses on spatial economic processes  | [SU2] presentation/project/paper/report |
|   | [GPMU2_U06] can organise and lead a debate among diverse audiences regarding spatial conflicts, with particular emphasis on environmental conflicts  | prepares scientific work in a way that ensures the communication of specialised topics to a diverse audience  | [SU2] presentation/project/paper/report |
|   | [GPMU2_U07] performs complex research tasks or expertise in the field of spatial management by interacting with other people, taking a leading role in teams and presenting the results of the research in a written and oral form using specialised terminology   | carries out a complex research task and develops it into a written thesis   | [SU2] presentation/project/paper/report |
|   | [GPMU2_U09] can independently plan own professional or scientific career and guide others in this respect  | identifies the tasks and attitudes that are associated with academic and research work  | [SU2] presentation/project/paper/report |
|   | [GPMU2_W01] recognises an in-depth degree, the interdisciplinary nature of spatial management and has ordered and theoretically founded knowledge of multidimensional approaches in spatial policy   | presents the research problem addressed in the thesis in the context of contemporary socio-economic processes and trends in theoretical terms and taking into account the latest practical solutions      | [SW2] presentation/project/paper/report |
| [GPMU2_W06] identifies problems and theories in spatial management, taking into account complex dependencies and trends of changes in the natural environment; understands their theoretical and practical significance | research in the master's thesis in the context of contemporary socio-economic processes and trends from a theoretical perspective and taking into account the latest practical solutions   | [SW2] presentation/project/paper/report   |   |
| Subject contents  | A.1 Presentation of the introductory sections of the thesis: aim and scope of the thesis, literature review, data used and methods employed/research methods used.A.2 Presentation and discussion of the research results obtained (multimedia presentation).  |   |   |
| Prerequisites and co-requisites   | Knowledge of: the basics of physical and socio-economic geography, including knowledge of the structure of the geographical environment and interactions/knowledge of the structure of the geographical environment and the interactions between its components, as well as the conditions and factors shaping its spatial differentiation; knowledge of research methodologies and techniques applied in physical and socio-economic geography; knowledge of research methodologies and techniques used in physical and socio-economic geography; knowledge of basic literature on physical and socio-economic geography.knowledge of basic literature in physical and socio-economic geography. The ability to organise individual work independently, search for and synthesise information from a variety of sources, read professional literature with comprehension.sources, read professional literature (including in English) with comprehension, present the results of scientific research (own and foreign) in a public forum.in a public forum. |   |   |
| Assessment methods and criteria   | Subject passing criteria   | Passing threshold   | Percentage of the final grade           |
|   | Evaluation of partial thesis steps   | 51.0%   | 100.0%                                  |
