

Subject card

Subject name and code	Economy and Environment, PG_00201582						
Field of study	Economics						
Date of commencement of studies	October 2026	Academic year of realisation of subject			2027/2028		
Education level	Bachelor's studies	Subject group			Obligatory subject group in the field of study Optional subject group		
Mode of study	full-time studies	Mode of delivery			at the university		
Year of study	2	Language of instruction			Polish		
Semester of study	3	ECTS credits			2.0		
Learning profile	academic	Assessment form			exam		
Conducting unit							
Name and surname of lecturer (lecturers)	Subject supervisor		dr hab. Barbara Pawłowska				
	Teachers						
Lesson types	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	30.0	0.0	0.0	0.0	0.0	30
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	30		4.0		16.0	50
Subject objectives	Upon completing the course, students gain the capability to analyze economic processes through the lens of protecting and utilizing natural capital efficiently. They grasp the concept of sustainable development and can identify tools that help the economy adopt this developmental approach. They also consider social costs and benefits in their daily decision-making.						

Learning outcomes	Course outcome	Subject outcome	Method of verification
	[EKONL3_U12] can independently plan and implement own lifelong learning	The student has the ability to independently plan and carry out lifelong learning, select appropriate literature, and formulate conclusions based on it.	[SU1] oral statement/conversation/discussion [SU4] test/exam - oral or written
	[EKONL3_W01] has advanced knowledge of the nature of social sciences, their place in the system of sciences, knows the role of economic sciences in this system and uses universal economic terminology	The student possesses advanced knowledge in the field of social sciences and understands the role of economic sciences within this framework, including heterodox currents. They are also proficient in using universal economic terminology.	[SW4] test/exam - oral or written [SW1] oral statement/conversation/discussion
	[EKONL3_K02] is aware of the level of knowledge in the field of economics and understands the need to deepen and update this knowledge throughout life	The student is aware of their level of knowledge in the area of sustainable development economics and understands the necessity of continually deepening and updating this knowledge throughout their life.	[SK1] oral statement/conversation/discussion [SK5] implementation of a problem task
	[EKONL3_W05] has a knowledge of man as a subject who creates social structures and the principles of their functioning and of his action in these structures, knows well the motives of human economic decision-making	The student possesses advanced knowledge about humans as creators of social structures and the principles of their functioning, as well as their relationships with the environment. They are well-versed in the motives behind human economic decision-making regarding the use of natural capital.	[SW4] test/exam - oral or written [SW1] oral statement/conversation/discussion [SW5] implementation of a problem task
	[EKONL3_W03] knows the relations between economic agents and social organisations operating in the national, international and intercultural arenas	The student has advanced knowledge of the relationships between economic entities, social organizations, and the natural environment in a global context.	[SW4] test/exam - oral or written [SW1] oral statement/conversation/discussion [SW5] implementation of a problem task
