

Subject card

Subject name and code	Diploma Exam Preparation II - laboratory, PG_00206174						
Field of study	Oceanography						
Date of commencement of studies	October 2026	Academic year of realisation of subject			2028/2029		
Education level	Bachelor's studies	Subject group			Obligatory subject group in the field of study Optional subject group Subject group related to scientific research in the field of study		
Mode of study	full-time studies	Mode of delivery			at the university		
Year of study	3	Language of instruction			Polish		
Semester of study	6	ECTS credits			6.0		
Learning profile	academic	Assessment form			credit		
Conducting unit	Faculty of Oceanography and Geography -> Rector						
Name and surname of lecturer (lecturers)	Subject supervisor		dr Agata Błaszczyk				
	Teachers						
Lesson types	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	0.0	0.0	55.0	0.0	0.0	55
	E-learning hours included: 0.0						
	Additional information: Laboratory or field exercises, data analysis, discussion, literature review.						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	55		5.0		90.0	150
Subject objectives	Implementation of tasks related to the performance of the bachelor's thesis.						

Learning outcomes	Course outcome	Subject outcome	Method of verification
	[OCEANL3-W08] knows and understands concepts and principles related to industrial property protection, copyright law, and social responsibility, and is aware of the limitations arising from copyright protection	The student knows and understands the basic concepts and principles of copyright law, is aware of the limitations resulting from copyright protection.	[SW3] text preparation/written work
	[OCEANL3-U03] is able to process, describe, and present results, and draw conclusions	The student is able to analytically and synthetically develop the results of research and analysis and on their basis make correct conclusions.	[SU3] text preparation/written work
	[OCEANL3-W05] has an advanced knowledge of techniques, research methods, and tools (mathematical, statistical, and computational) used by oceanographers to describe and interpret processes and phenomena occurring in the marine environment	The student knows at an advanced level the basic techniques, research methods and tools (mathematical, statistical, IT) used in the field of biological oceanography in order to describe and interpret phenomena and processes occurring in the marine environment.	[SW3] text preparation/written work [SW5] implementation of a problem task
	[OCEANL3-W03] has an advanced understanding of the relationships between living and non-living components of aquatic environments, and is aware of the complex nature, intricacy, and natural variability of these environments	The student knows and understands at an advanced level the basic relationships between animate and inanimate elements of the marine environment, identifies and correctly describes basic natural phenomena and explains their course in relation to the processes occurring in the sea.	[SW3] text preparation/written work
[OCEANL3-K01] is willing to plan and implement, individually or as a team, the subsequent stages of the entrusted task, is willing to take responsibility for the results of these works, effectively cooperates in the team and performs various roles in it	The student is prepared to plan and execute successive stages of the assigned task, demonstrates a sense of responsibility for its outcomes, and collaborates effectively within a team while fulfilling various roles.	[SK5] implementation of a problem task	
Subject contents	The subject of the diploma studio depends on the topic of the bachelor's thesis.		
Prerequisites and co-requisites	The condition for obtaining a pass is the submission of the entire bachelor's thesis.		
Assessment methods and criteria	Subject passing criteria	Passing threshold	Percentage of the final grade
	Preparing the manuscript of a bachelor's thesis	51.0%	100.0%
Recommended reading	Basic literature	Literature is selected for the student individually, according to the instructions of the supervisor of the bachelor's thesis	
	Supplementary literature	Literature is selected for the student individually, according to the instructions of the supervisor of the bachelor's thesis	
	eResources addresses		
Example issues/ example questions/ tasks being completed	<ul style="list-style-type: none"> - studying literature, - performing laboratory work and other research tasks, - writing a bachelor's thesis 		
Work placement	Not applicable
