Subject objectives

During their internship in the field of security, students will gain knowledge about national and international security frameworks, including legal and regulatory aspects. They will apply theoretical knowledge in practice, learning to identify, assess, and manage risks. Students will gain operational experience by participating in activities related to security, crisis management, and cybersecurity. They will learn intelligence gathering and analysis, interagency collaboration, and the use of modern security technologies.

Learning outcomes	Course outcome	Subject outcome	Method of verification
	[BNL3_W05] He has an advanced understanding of the conditions and forms of citizens' participation in social life at its various levels. He defines phenomena that significantly determine actions undertaken for the sake of security. He possesses advanced knowledge of the origin and evolution of norms organizing social structures and institutions relevant to security, including legal and ethical issues concerning the protection of intellectual property and copyright law.	He identifies forms of participation in public and professional life, indicates the applicable norms (including those related to copyright law), and evaluates a selected situation encountered during the internship, providing justification for the assessment. He knows and understands the principles of creating and developing various forms of entrepreneurship, including individual	[SW1] oral statement/ conversation/discussion
	[BNL3_K03] Has a need to continue to complete his/her knowledge as well as expand and improve skills.	He feels the need to continually expand his knowledge and improve his skills while maintaining a critical perspective.	[SK7] entries and opinions in the internship diary

Subject contents	**Introduction to Internal Security** • Overview of internal security concepts and definitions • Historical development and significance of internal security • Legal and regulatory framework 2. **Risk Management and Assessment** • Introduction to risk management principles • Techniques for risk assessment and analysis • Case studies of risk management in various sectors 3. **Crisis Management** • Fundamentals of crisis management • Developing and implementing crisis response plans • Crisis communication strategies 4. **Security Operations and Procedures** • Overview of security operations in different environments • Standard operating procedures (SOPs) for internal security • Implementation and monitoring of security measures 5. **Cybersecurity Basics** • Introduction to cybersecurity principles • Identifying and mitigating cyber threats • Best practices for cybersecurity in organizations 6. **Intelligence Gathering and Analysis** • Techniques for gathering intelligence • Analyzing and interpreting intelligence data • Using intelligence for strategic security planning 7. **Interagency and Interdepartmental Cooperation** • Importance of collaboration in internal security • Models of interagency and interdepartmental cooperation • Practical exercises in building cooperation frameworks 8. **Legal and Ethical Considerations** • Legal aspects of internal security • Ethical issues in security operations • Intellectual property and copyright law 9. **Security Technology and Innovations** • Latest technologies in internal security • Implementing and managing security technologies • Evaluating the effectiveness of security solutions 10. **Public Safety and Community Policing** • Role of public safety agencies • Community policing strategies • Building trust and cooperation with the public 11. **Corporate Security Management** • Security management in corporate settings • Developing corporate security policies • Case studies of corporate security incidents 12. **Threat Analysis and Mitigation** • Identifying potential threats to internal security • Developing threat mitigation strategies • Practical exercises in threat analysis 13. **Cultural and Social Aspects of Security** • Impact of cultural and social factors on security • Strategies for managing security in diverse environments • Case studies of security in different cultural contexts

14. **Practical Workshops and Simulations**

- Simulated security incidents and response drills
- Practical exercises in security planning and implementation
- Role-playing scenarios to enhance decision-making skills

15. **Evaluation and Continuous Improvement**

- Methods for evaluating security performance
- Techniques for continuous improvement in security practices
- Feedback and reflection sessions

16. **Capstone Project**

- Development of a comprehensive security plan for a hypothetical or real organization
- Presentation and defense of the security plan
- Peer review and feedback
