Subject objectives	The aim of the course is to present the consequences of crime from the perspective of individuals and society, with particular emphasis on the impact experienced by victims. The course introduces students to the direct and indirect costs of crime, including its social, economic and legal consequences, as well as the issues of primary, secondary and repeat victimization. It also aims to develop students' ability to analyse the consequences of crime, factors affecting the situation of victims, and institutional and social responses to their needs.						

Learning outcomes	Course outcome	Subject outcome	Method of verification
	[KRYML3_W02] Has advanced knowledge of terminology and key concepts in criminology, law, and related disciplines relevant to the field of study.	The student knows and correctly uses criminological and victimological terminology concerning the consequences of crime, in particular the concepts of victimization, harm and the social costs of crime.
