|                                                                | eResources addresses                                                                                                                                                                                                                                                                                                                                |                                                                                                                                                                                                                                                                                                                                                                               |                                   |
| Example issues/<br>example questions/<br>tasks being completed | To bias a diode in conduction, you must. To bias a pn junction in the reverse direction, you must. The capacitance of a capacitive diode depends on. The output characteristic of a bipolar transistor is. The operational amplifier has the following inputs. The parameters of sinusoidal waveform generators include.                            |                                                                                                                                                                                                                                                                                                                                                                               |                                   |
| Work placement                                                 | Not applicable                                                                                                                                                                                                                                                                                                                                      |                                                                                                                                                                                                                                                                                                                                                                               |                                   |
