

Subject card

Subject name and code	Economic determinants of spatial management, PG_00191734						
Field of study	Spatial Management						
Date of commencement of studies	October 2027		Academic year of realisation of subject		2028/2029		
Education level	Bachelor's studies		Subject group		Obligatory subject group in the field of study Subject group related to scientific research in the field of study		
Mode of study	full-time studies		Mode of delivery		at the university		
Year of study	2		Language of instruction		Polish		
Semester of study	3		ECTS credits		3.0		
Learning profile	academic		Assessment form		exam		
Conducting unit							
Name and surname of lecturer (lecturers)	Subject supervisor		dr Maciej Tarkowski				
	Teachers						
Lesson types	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	60.0	0.0	10.0	0.0	0.0	70
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	70		0.0		5.0	75
Subject objectives	Acquiring knowledge in the field of socio-economic conditions of spatial management, including the issue of local identity, iving conditions and housing space, needs in the field of transport and mobility and logistical support for the needs of residents, technical and transport infrastructure and its manifestations and consequences in space, green transformation in the field of logistical service for residents and the municipal finances.						

Learning outcomes	Course outcome	Subject outcome	Method of verification
	[GPL3_K05] is ready to take up professional roles in an entrepreneurial manner	debates the use of the unit's budget territorial, using the specialized language of economics in argumentation, public finances and spatial management	[SK1] oral statement/conversation/discussion
	[GPL3_W04] knows and understands at an advanced level, the aims and conditions of using basic methods of quantitative analysis and interpretation of spatial processes and phenomena	analyzes the economic situation of territorial units and proposes repair and/or development solutions	[SW4] test/exam - oral or written [SW2] presentation/project/paper/report
	[GPL3_U04] makes the correct selection of basic quantitative methods (including field research), uses them in the analysis of spatial diversity of natural, social or economic phenomena and also makes a correct interpretation of the results on the basis of the specificity of selected methods	recognizes basic quantitative methods of analysis finances of local government units and interprets the obtained analysis results	[SU2] presentation/project/paper/report
	[GPL3_K04] is ready to initiate and actively participate in activities for the benefit of spatial order and sustainable development of the region, country and Europe	analyzes the economic situation of territorial units and proposes repair and/or development solutions	[SK8] observation of student's independent or team work
	[GPL3_K03] is ready to identify and resolve cognitive problems related to the profession in accordance with the latest knowledge in the field of spatial management, including expert opinions	proposes ways to use budget funds in accordance with the principles of economics and entrepreneurship based on a balanced budget	[SK4] test/exam - oral or written
Subject contents	Quality of life and housing The commune as an entity of spatial management in Poland Contemporary socio-spatial processes in public space Transport and technical infrastructure and their interactions with spatial development Green transformation needs in mobility and transport		
Prerequisites and co-requisites	knowledge of the subjects: socio-cultural foundations of spatial management and economic and legal foundations of spatial management		
Assessment methods and criteria	Subject passing criteria	Passing threshold	Percentage of the final grade
	Exam: questions of four thematic blocks; exercises: test and project 30% of the grade for exercises and 70% for the exam	51.0%	100.0%
