University of Gdańsk

Subject card

Subject name and code	Bachelor's Degree Workshop II in Physical Geography, PG_00195145		
Field of study	Geography		
Date of commencement of studies	October 2027	Academic year of realisation of subject	2029/2030
Education level	Bachelor's studies	Subject group	Obligatory subject group in the field of study Optional subject group Subject group related to scientific research in the field of study
Mode of study	full-time studies	Mode of delivery	at the university
Year of study	3	Language of instruction	Polish
Semester of study	6	ECTS credits	4.0
Learning profile	academic	Assessment form	credit
Conducting unit			
Name and surname of lecturer (lecturers)	Subject supervisor	dr Mirosława Malinowska	
	Teachers		

Lesson types

Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
Number of study hours	0.0	0.0	30.0	0.0	0.0	30

E-learning hours included: 0.0

Learning activity and number of study hours

Learning activity	Participation in didactic classes included in study plan	Participation in consultation hours	Self-study	SUM
Number of study hours	30	5.0	65.0	100

Subject objectives

The aim of the course is to support students in conducting research in the field of physical geography, including the collection and processing of a complete set of research material, its analysis and graphical presentation, and the editing of the entire text of the thesis in a specific methodological convention and with correct documentation.

Learning outcomes

Course outcome	Subject outcome	Method of verification
[GEOGRL3-K02] is prepared to bear full responsibility for the actions taken actions and adhere to the principles of professional ethics and principles of intellectual honesty, is aware of the importance of a professional approach in professional life professional life	Demonstrates professional behaviour , manifested in an attitude of responsibility for actions taken in the course of preparing a thesis in the field of physical geography	[SK2] presentation/project/paper/ report [SK3] text preparation/written work [SK8] observation of student's independent or team work
[GEOGRL3-U03] can plan and conduct, independently and as part of a team, simple research in the field of geography under the supervision of a scientific advisor, based on the necessary information from professional literature and other sources	Independently conducts research in the field of physical geography based on information from specialist literature and other sources with the support of a research supervisor	[SU2] presentation/project/paper/ report [SU3] text preparation/written work
[GEOGRL3-K04] is prepared to independently undertake and initiate professional behavior, including maintaining the principles of professional ethics in oneself and others, and care for the achievements and traditions of the geography profession	Independently takes steps to prepare a thesis in a specific methodological convention with correct documentation.	[SK2] presentation/project/paper/ report [SK3] text preparation/written work
[GEOGRL3-U06] can develop a selected geographical issue in the form of a scientific text in Polish, following a specific methodological convention and with correct documentation	Prepares a selected problem in physical geography in the form of a scientific text in Polish, following a specific methodological convention and with correct documentation.	[SU3] text preparation/written work
[GEOGRL3-U04] can apply field and laboratory methods and research tools, spatial analysis methods, and methods of presenting research results in the field of geography, assess their usefulness for tasks in which the application goal of geography can be realized	Conducts field and/or indoor research in the field of physical geography for the purpose of completing a thesis; makes necessary corrections if required.	[SU2] presentation/project/paper/ report [SU8] observation of student's independent or team work
[GEOGRL3-W06] knows advanced methods of acquiring, processing, and compiling geographic environmental data, as well as methods of analyzing and interpreting such data	Knows methods of acquiring, processing and compiling data on the natural environment , as well as methods of analysing and interpreting such data.	[SW2] presentation/project/paper/ report [SW3] text preparation/written work

Subject contents

1. Methods of graphical presentation of research results
2. Use of subject literature in diploma theses
3. Discussion of results
4. Preparation of the entire diploma thesis in a specific methodological convention, with correct documentation

Prerequisites and co-requisites

Knowledge of: the basics of physical and socio-economic geography, familiarity with basic literature in the field of physical and socio-economic geography. Ability to search for and synthesise information from multiple sources; preliminary processing of statistical data; working with computer editing programmes and GIS programmes.

Assessment methods and criteria

Subject passing criteria	Passing threshold	Percentage of the final grade
assessment of progress reports on work implementation	51.0%	45.0%
assessment of the student's professional performance	51.0%	10.0%
assessment of the thesis text	51.0%	45.0%

Recommended reading

Basic literature	Literature used in the thesis
Supplementary literature	Literature expanding on the topics covered in the thesis
eResources addresses	

Example issues/ example questions/ tasks being completed	Prepare the text of your thesis in a specific methodological convention with correct documentation.
Work placement	Not applicable
