University of Gdańsk

Subject card

Subject name and code	Challenges of the modern word - lecture, PG_00192691		
Field of study	Marine Biotechnology		
Date of commencement of studies	October 2027	Academic year of realisation of subject	2027/2028
Education level	Master's studies	Subject group	Obligatory subject group in the field of study Optional subject group Subject group related to scientific research in the field of study
Mode of study	full-time studies	Mode of delivery	at the university
Year of study	1	Language of instruction	English
Semester of study	2	ECTS credits	1.0
Learning profile	academic	Assessment form	credit
Conducting unit	Laboratory of Aquaculture -> Department of Marine Biology and Biotechnology -> Faculty of Oceanography and Geography -> Rector		
Name and surname of lecturer (lecturers)	Subject supervisor	prof. dr hab. inż. Konrad Ocalewicz	
	Teachers		

Lesson types

Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
Number of study hours	15.0	0.0	0.0	0.0	0.0	15

E-learning hours included: 0.0

Learning activity and number of study hours

Learning activity	Participation in didactic classes included in study plan	Participation in consultation hours	Self-study	SUM
Number of study hours	15	1.0	9.0	25

Subject objectives	The aim of the course is to present the main challenges facing the modern world and to analyze the global and local consequences of the violent and unpredictable events we are experiencing today.

<table>
<tr><td>Learning outcomes</td><td>
<table>
<tr><th>Course outcome</th><th>Subject outcome</th><th>Method of verification</th></tr>
<tr><td>[MBMU2-KU03] Can use and critically analyze available scientific information; can prepare and present - orally or in writing - a paper covering detailed problems in the field of marine biotechnology on the basis of the scientific information or their own work, with the use of scientific language, including specialized terminology and conceptual apparatus; has the ability to conduct discussions</td><td>Is able to fluently use and critically analyze available information scientific issues relating to the modern world, the natural environment, natural resources and climate change; based on them and on the basis of your own work
is able to prepare and present an oral presentation and/or a written study covering detailed issues in the above-mentioned field. issues, using scientific language, including specialized terminology and conceptual apparatus; has ability to conduct discussions</td><td>[SU2] presentation/project/paper/ report
[SU3] text preparation/written work</td></tr>
<tr><td>[MBMU2-KK01] Is ready to critically evaluate his knowledge and continuously improve, update and upgrade his skills in the field of marine biotechnology</td><td>Is ready to critically evaluate his knowledge and constantly improve it,
updating and improving qualifications in the field of current world problems, with particular emphasis on changes in the natural environment.</td><td>[SK3] text preparation/written work</td></tr>
<tr><td>[MBMU2-KW01] Has an in-depth knowledge and understanding of the significance, limitations and potential applications of natural marine resources in the context of the complex biological, environmental and technological factors influencing the development of biotechnology.</td><td>has in-depth knowledge of global and current changes events.</td><td>[SW1] oral statement/ conversation/discussion
[SW3] text preparation/written work</td></tr>
</table>
</td></tr>
<tr><td>Subject contents</td><td>A1: Development and application of "new generation" tools and methods in biotechnology. A2: Genetically modified organisms controversies, prospects and limitations. A3: Carbon footprint and food production globally and locally. A4: Pandemic in the world and its consequences. A5: Global energy crisis. A6: Climate change and its consequences. A7:Overexploitation of natural resources. A8: The development of artificial intelligence and the development of biotechnology.</td></tr>
<tr><td>Prerequisites and co-requisites</td><td></td></tr>
<tr><td>Assessment methods and criteria</td><td>
<table>
<tr><th>Subject passing criteria</th><th>Passing threshold</th><th>Percentage of the final grade</th></tr>
<tr><td>essay</td><td>51.0%</td><td>60.0%</td></tr>
<tr><td>quiz</td><td>51.0%</td><td>40.0%</td></tr>
</table>
</td></tr>
<tr><td>Recommended reading</td><td>
<table>
<tr><td>Basic literature</td><td>Articles recommended by the instructor and independently selected by the student articles published in scientific and popular science press, documentaries, online resources and reports on current events.</td></tr>
<tr><td>Supplementary literature</td><td>Articles recommended by the instructor and independently selected by the student articles published in scientific and popular science press, documentaries, online resources and reports on current events.</td></tr>
<tr><td>eResources addresses</td><td></td></tr>
</table>
</td></tr>
<tr><td>Example issues/ example questions/ tasks being completed</td><td>Food production - how to reduce emission of CO2?</td></tr>
<tr><td>Work placement</td><td>Not applicable</td></tr>
