University of Gdańsk

Subject card

Subject name and code	Recent Findings in Ocean Research - lecture, PG_00204946						
Field of study	Oceanography						
Date of commencement of studies	October 2027		Academic year of realisation of subject		2028/2029		
Education level	Master's studies		Subject group		Obligatory subject group in the field of study		
Mode of study	full-time studies		Mode of delivery		at the university		
Year of study	2		Language of instruction		English		
Semester of study	4		ECTS credits		2.0		
Learning profile	academic		Assessment form		credit		
Conducting unit	Faculty of Oceanography and Geography -> Rector						
Name and surname of lecturer (lecturers)	Subject supervisor		dr Anna Panasiuk				
	Teachers						
Lesson types	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	30.0	0.0	0.0	0.0	0.0	30
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	30		2.0		18.0	50
Subject objectives	The aim of the course is to familiarize students with the latest directions of research in the field of oceanography conducted in scientific centers in Poland and around the world, as well as the latest scientific reports. Lectures will be conducted in English also by invited guests from various scientific and research institutions from Poland and abroad. Participation in lectures, the possibility of discussion will also allow the use of specialist terminology in English in practice.						

Learning outcomes

Course outcome	Subject outcome	Method of verification
[OCEANMU2-W01] knows and understands in-depth specialized terminology used in oceanography and related sciences (in Polish and a selected foreign language)	knows and understands advanced oceanographic terminology in English	[SW4] test/exam - oral or written [SW3] text preparation/written work
[OCEANMU2-K03] is ready to effectively organize his/her own work, is active and persistent and punctuality in completing tasks, is ready to carrying out evaluation of their own activities	is ready to critically evaluate the knowledge he/she has and the content he/she receives from the subject area	[SK3] text preparation/written work
[OCEANMU2-U01] is able to formulate and solve complex and unusual problems regarding the functioning of individual components of the marine environment using knowledge from various fields and scientific disciplines and propose solutions	is able to use current scientific terminology in English when presenting and discussing problems in the field of oceanography	[SU1] oral statement/conversation/ discussion [SU3] text preparation/written work
[OCEANMU2-W04] has an in-depth understanding of the latest research trends in oceanography, as well as the possibilities for practical application of related achievements; evaluates their usefulness and limitations in solving scientific research problems, and critically analyzes and assesses their applicability	knows and understands at an advanced level the issues and research problems in the field of oceanography	[SW4] test/exam - oral or written [SW3] text preparation/written work

Subject contents

A1. Characteristics of the scientific or research unit represented by the leader. A2. Presentation of currently conducted research (problems, methods, results). A3. Other aspects of conducting research or working in a scientific or research unit.

Prerequisites and co-requisites

Assessment methods and criteria

Subject passing criteria	Passing threshold	Percentage of the final grade
test or esey	51.0%	100.0%

Recommended reading

Basic literature	The bibliography will be presented depending on the issues covered in the classes.
Supplementary literature	The bibliography will be presented depending on the issues covered in the classes.
