University of Gdańsk

Subject card

Subject name and code	Law of the Sea - lecture, PG_00204934						
Field of study	Oceanography						
Date of commencement of studies	October 2027		Academic year of realisation of subject		2028/2029		
Education level	Master's studies		Subject group		Obligatory subject group in the field of study Humanistic-social subject group		
Mode of study	full-time studies		Mode of delivery		at the university		
Year of study	2		Language of instruction		Polish		
Semester of study	3		ECTS credits		1.0		
Learning profile	academic		Assessment form		credit		
Conducting unit							
Name and surname of lecturer (lecturers)	Subject supervisor		dr hab. Dorota Pyć				
	Teachers						
Lesson types	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	15.0	0.0	0.0	0.0	0.0	15
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	15		1.0		9.0	25
Subject objectives	Acquisition of basic knowledge in the field of the law of the sea, as well as in-depth knowledge of legal institutions and procedures applicable to human activities in the marine environment, in particular regarding legal instruments for the protection of the marine environment, marine protected areas, marine genetic resources, marine scientific research, and also presenting the principles governing the functioning of administrative bodies responsible for the sustainable management of the sea.						

Learning outcomes

Course outcome	Subject outcome	Method of verification
[OCEANMU2-W06] knows and identifies potential threats to the marine environment on a local and global scale resulting from strong anthropopressure, predicts their effects on various time and space scales	has knowledge and understanding of the fundamental legal regulations and principles of sustainable development of the marine environment, its protection, and the management of the marine environment and its resources.	[SW4] test/exam - oral or written
[OCEANMU2-K04] is ready to critically evaluate his/her knowledge and received content in the field of natural sciences in in particular in the field of the studied specialty, a in problematic situations, supports oneself with knowledge experts	is ready to critically evaluate their own knowledge and the information received in the fields of natural and legal sciences, particularly within the scope of their field of study, and in problematic situations, to seek support from expert knowledge.	[SK4] test/exam - oral or written
[OCEANMU2-U09] can take part in a discussion/debate using substantive arguments, has the ability to formulate opinions based on scientific knowledge and experience and creating synthetic summaries	is able to take part in discussions using substantive arguments, has the ability to formulate opinions based on scientific knowledge and experience, and to produce concise summaries.	[SU4] test/exam - oral or written
[OCEANMU2-W01] knows and understands in-depth specialized terminology used in oceanography and related sciences (in Polish and a selected foreign language)	has an advanced understanding of specialized terminology used in legal sciences (in Polish), with particular emphasis on maritime studies, appropriate to the field of study.	[SW4] test/exam - oral or written

Subject contents

1. Objectives and principles of the law of the sea
2. Legal status of maritime areas
3. Maritime jurisdiction: rights and obligations of subjects of the law of the sea
4. The law of the sea in the face of global challenges
5. Legal protection of the marine environment: marine protected areas (MPAs)
6. Principles governing the conduct of marine scientific research
7. Legal instruments of global ocean governance
8. Legal status of marine genetic resources
9. Marine space culture

Prerequisites and co-requisites

Assessment methods and criteria

Subject passing criteria	Passing threshold	Percentage of the final grade
test	51.0%	100.0%
