

Subject card

Subject name and code	International and EU Climate change law , PG_00072799						
Field of study	Environmental Law and Sustainable Development						
Date of commencement of studies	October 2024	Academic year of realisation of subject			2025/2026		
Education level	Master's studies	Subject group			Obligatory subject group in the field of study		
Mode of study	full-time studies	Mode of delivery			at the university		
Year of study	2	Language of instruction			English		
Semester of study	4	ECTS credits			1.0		
Learning profile	academic	Assessment form			credit		
Conducting unit							
Name and surname of lecturer (lecturers)	Subject supervisor		dr hab. Maciej Nyka				
	Teachers						
Lesson types	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	0.0	10.0	0.0	0.0	0.0	10
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	10		2.0		10.0	22
Subject objectives	The aim of the course is to present to students the issues of climate protection in the law and policy of the European Union						

Learning outcomes	Course outcome	Subject outcome	Method of verification
	[ELSDMU2_K02] The graduate is ready to responsibly perform professional roles, taking into account the changing social needs, including: - developing the achievements of the profession, - maintaining the ethos of the profession, - observing and developing the principles of professional ethics and acting for the observance of these principles	The graduate is ready to responsibly perform professional roles, taking into account the changing social needs, in particular those relating to the issues of legal aspects of climate change, including: - developing the achievements of the profession, - upholding the ethos of the profession, - observing and developing the principles of professional ethics and acting for the observance of these principles	
	[ELSDMU2_W07] Student has a structured knowledge of the types of legal relations and the regularities that govern them	has a structured knowledge of the type of legal relations relating to legal climate protection and the regularities governing these relations	
	[ELSDMU2_U01] The graduate is able to independently plan and implement his/her own lifelong learning and guide others in this area.	The graduate is able to independently plan and implement their own lifelong learning in the area of climate protection law	
	[ELSDMU2_W03] The graduate knows and understands the fundamental dilemmas of modern civilization. The graduate knows and understands the economic, legal and other conditions of various types of activities related to the awarded qualification, including the principles of industrial property protection and copyright.	The graduate knows and understands the fundamental dilemmas of modern civilization related to climate protection. The graduate knows and understands the economic, legal and other conditions of various types of activities related to the awarded qualification, including the principles of industrial property protection and copyright law
